Military Budget Battle Shifts to Augusta Club

Augusta, Ga., Nov. 16—(UPI)—President Eisenhower day with the high command of the Defense Dept. to mold and nearly final shape the big military budget for the fiscal year.

Defense Secretary Neil H. McElroy, Budget Director Maurice Stans and Gen. Nathan F. Twining, chairman of the Chiefs of Staff, led a large party of officials who flew from Washington, arriving at 8:25 a.m. EST.

They drove immediately to the Augusta National Golf Club for their conference with the President in the handsome trophy room.

ADDITION to the overall new defense budget, to run about \$41 billion, the high-level conference expected to take up the Bureau recommendation army's future role be re-limited wars, thus ending its traditional—and global war mission.

Summary, in previous budget sessions, has objected to the Budget Bureau memorandum, calling it an act of military policy and by budget makers.

AS THE President's action in budget building seemed, time was run. He will be away from home on a 20,000-mile tour of the Middle East from Dec. 3 through Dec. 10.

The Chief Executive and administration chiefs were to "lock up" the budget of his departure.

A determined effort was made in the clubhouse yesterday to come to some final agreement on the whopping defense fiscal 1961. It was expected to run over \$41 billion and closer to \$42 billion.

Cranberry Producer Seeks Aid

WASHINGTON, Nov. 16 — (UPI)—President Eisenhower has been asked to declare five cranberry-producing states as "disaster areas" to provide federal aid for farmers who face a 50 million dollar loss from the cancer scare.

The plea was contained in a telegram yesterday from George P. Olson, president of Ocean Spray, Inc. The firm represents 75 per cent of the industry.

IT CAME AS the Food and Drug Administration announced that laboratory tests showed most cranberries to be free of contamination.

Olson accused Arthur S. Flemming, Secretary of Health Education and Welfare, of conducting a "cranberry witch-hunt."

He said Flemming's "unnecessary, untimely and imprudent" warning to housewives just before Thanksgiving that some cranberries were tainted with a weed killer which could induce cancer in rats had ruined the industry.

THE GOVERNMENT said its "scoreboard" of lab tests on cranberries showed 199 out of 202 lots to be safe for Thanksgiving dinner table.

However, the tests were not expected to be near completion until the end of this week. Seventeen district offices are working overtime to speed the effort.

THE GRAND UNION CO., which has 451 supermarkets on the East Coast, announced in New York it was buying the sale of cranberries today. The firm said it carried out its own investigation and found its supplies to be safe.

Crime Reflects Moral Breakdown

LOS ANGELES, Nov. 16 — (UPI) — The American public is undergoing a steady breakdown in moral standards which is being reflected in an ever-increasing rise in juvenile and adult crime, the head of the Los Angeles Police Department juvenile bureau said today.

Capt. G. J. Glavas said his studies have shown this moral and ethical breakdown is nationwide in its scope and to a large extent is supported by the country's judges.

"Examples of this breakdown into what is right and wrong can be seen every day in the letters to the editor columns of the newspapers," Glavas said. "The recent television quiz scandals have brought hundreds of letters, not criticizing the cheating but trying to justify it in the writer's mind."

GLAVAS said juvenile delinquency and
